Program Description

Our homes welcome youth with emotional, developmental, and behavioral issues seeking a therapeutic family style environment. In our homes, the youth will:

- Develop increased social skills through community based care
- Attend public school, majority on IEPs
- Are encouraged to participate in school and community activities when appropriate.

As our homes are community-based, we **cannot** accept youth who pose an *immediate* threat to others or themselves.

Population Description

CTH is an approved Medicaid provider of behavioral health services, including assessments, individual and group counseling. For youth who do not have Medicaid counseling will be an additional fee.

The homes are per diem based. Medical expenses, not covered by Medicaid, and initial clothing costs are not included in the per diem.

Homes Located in:
Clyde (Sandusky Cty)
Delta & Swanton (Fulton Cty)
Monclova (Lucas Cty)

Our Continuum of Care

CTH provides a community-based network of family style group homes throughout Ohio. Our Teaching Parents have worked in numerous Teaching-Family certified organizations that utilized the Teaching-Family Model throughout the United States and Canada.

The Teaching Parents have an average of 25 years' experience working with high-risk youth. By combining all their experience, the teaching parents have over 106 years working in therapeutic group homes!

Our therapeutic homes implement a behavioral management model. This is a fully integrated approach to providing effective individualized treatment and services to clients. Family style relationships are seen as essential to healthy development of social and interpersonal skills. These homes weave advanced cognitive behavioral techniques, motivation systems, independent living skills, and person-centered interventions into daily life interactions results in an unparalleled therapeutic environment.

The behavioral health team at CTH takes the continuum of care one step farther by intertwining the behavioral management model into their therapeutic services.

*Families licensed for individuals between the listed ages. However, individuals will not be accepted after the age of 18.
